### HONOLULU EDITOR HAS TYPESETTING PATENT

Revolution in the old system of setting type by hand in Japanese, Chinese and Korean newspaper and printing shops is expected to follow the early installment in this city of a line-type machine invented by S. Sheba of Honolulu, editor of the Hawaii Shippo. The machine is now in construction in one of the big manufacturing plants on the mainland and will have about 5000 keys for as many characters.

The great number of Oriental characters in printing has always been considered a bar to setting any Oriental type by machine, but Mr. Sheba has devised a keyboard with the thousand most used characters in the middle and the minor characters ranged along the sides. The operator will sit on a wheeled chair running on a track parallel to the machine.

### F. E. MATSON TO JOIN BENEDICTS; WEDS FAR AWAY

Well-Known Newspaperman of Hawaii Will Be Married in Carnegie, Australia

Cupid's campaign among the ranks of members of the Star-Bulletin staffs, which raged with marked effectiveness several months ago, has not yet been ended. The last mail from Australia brought news that Floyd E. Matson, for several years a reporter for this paper, for some time editor of the Hawaii Herald and one of the best-known newspapermen of the islands, is to join the ranks of the benedicts.

Mr. Matson is to be married on July 3 to Miss Esther Gwendolyn Gould, daughter of Mr. and Mrs. Henry Gould of Carnegie, a suburb of Melbourne. But the romance is not one of the last few weeks during which Mr. Matson has been in the Antipodes. It had its beginning before he came to Hawaii three years ago to join the staff of the Evening Bulletin. The Gould family have lived for a number of years in the United States and Miss Gould's last four years of education were received in Cincinnati. The family afterward removed to Seattle, residing there three years and it was in Seattle that Mr. Matson met Miss Gould, he being then a reporter for the Post-Intelligencer.

Miss Gould's two brothers are with the Australian expeditionary force, fighting at the Dardanelles. One brother is color-sergeant with the third reinforcement of the Sixth Battalion, 4th Australian Infantry Brigade. The other is a lieutenant in the fourth reinforcement of the 4th Brigade.

The wedding is to be solemnized in the Christian church at Carnegie. Because of the war it will be a quiet affair, only the parents and a few intimate friends attending. Immediately afterward Mr. and Mrs. Matson leave for Sydney and later will sail on the steamer Niagara for Honolulu, arriving about the last of July.

### BRIGHT'S DISEASE

We proclaim this new FACT IN PHYSICS—Influence the renal tract with an agent that opposes renal granulation and degeneration and urinalysis will, in many cases, within 20 days begin to show diminishing albumenuria in Bright's disease.

The prescription counter having been without an agent to diminish albumenuria (see Tyson page 155) the importance of an Anti-Albumenuria is paramount and manifest.

That albumen can be reduced and that many of those succumbing to Bright's disease can have lives prolonged to other terminations has been established by urinalyses, and confirmed by disappearing symptoms in several thousand cases many involving dropsy and some, tapping.

The presence of albumen being a PHYSICAL FACT and its disappearance a FACT IN PHYSICS, there is no uncertainty as to the results that have been and are being obtained.

The Anti-Albumenuria (Fulton's Renal Compound) can be had at the Honolulu Drug Co. Ask for pamphlet. Current bulletin of recoveries and rationale mailed on application. John

#### HAWAIIAN COMMERCIAL'S CROP.

Alexander & Baldwin received a wireless message today that Hawaii Commercial & Sugar Company of Maui has finished grinding its crop with a total of 56,780 tons. This is the largest plantation in the islands and with sugar at the prevailing prices, the crop represents a fortune.

Hawaiian music will be discoursed during the evening. Reservations may be made by communicating with Manager Heydenreich, phone No. 2838.

A delightful evening is assured to all.

## The Coffee Crutch

Never gets folks very far along the road to Wellville.

Coffee deludes many (because it contains a poisonous drug, *caffeine*) and the more it is leaned upon the more it cripples its users.

If coffee makes the going difficult, suppose you leave it off for a while and try

## Instant Postum

This pure food-drink, made from choice, whole wheat and a small per cent of wholesome molasses, contains no drug whatever, but is genuine nourishment.

A level teaspoonful of Instant Postum in an ordinary cup of hot water dissolves instantly and makes it right for most persons.

A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream.

Experiment until you know the amount that pleases your palate and have it served that way in the future.

Postum comes in two forms.

Regular (must be boiled.)

Instant Postum doesn't require boiling but is prepared instantly by stirring a level teaspoonful in a cup of hot water.
